HARD WORKER

You can't do without a good hob in a kitchen, and Ariston has just what you need.

Low on maintenance but high on safety features, Ariston's Gas Hobs are perfectly tailored for busy kitchens. The durable glass top, made of 8mm Schott glass, is easy to clean up and can withstand knocks and high temperatures of up to 700 degrees Celsius. You can also customise the width, depth, and cut-out sizes for the hobs to make sure the hob is suited for your needs and kitchen.

As with all cooking appliances, safety is a top priority. Ariston Gas Hobs have a 100 per cent ignition rate to guard against gas leaks and explosions. They are also sealed with a thickened steel sheet to prevent liquids from seeping into the burner.

Additionally, the gas valve cuts off gas supply after 30 seconds if there's no flame

burning, a useful feature that prevents gas leakage if wind extinguishes the flame or the burner hasn't been properly turned off. To further prevent accidents, the gas hose is firmly held in place with a brass connector, and all hob components have been tested to be non-combustible, which prevents flames from spreading in case of a fire.

Ideal for Asian-style wok cooking, these

high-power gas hobs are also engineered with a 4.5kW brass burner which offers heat retention and even heat distribution for superior cooking results. Its high melting point ensures resistance to deformation; as it can withstand high temperatures of up to 980 degrees Celsius. Most of all, these burners emit less CO², which reduces your carbon footprint for a healthier environment.

express meals

PUT FOOD ON THE TABLE QUICKLY WITH THESE LOVELY KITCHEN ASSISTANTS.

The **Philips Avance Collection Airfryer XXL HD9654/91** and **Philips Viva Collection Airfryer HD9723/11** spins hot air in the chamber like a tornado to quickly cook and crisp up fried food. Fry up quick and delicious family meals with little to no oil, or roast, bake and grill with a healthier approach as well. The XXL is the range's largest and can accommodate a whole chicken, and the Viva Collection Airfryer is the brand's most compact to free up precious counter space.

Enjoy haute cuisines at home with the versatile **Ariston Gourmet Flexi Table Top 6-in-1 Appliance (MWC 339 BL)**. Its outstanding 33L cavity size offers the combined features of baking, crisp, crisp fry, grill, steam and microwave functions. It is

definitely more than a traditional oven which bakes confections as it can also crisp pizzas and pies in a few minutes. The crisp fry function allows you to cook tempura quickly without any oil. With 40 easy-to-prepare automatic recipes with the Chef Menu feature and the Auto Clean function, cooking up gourmet meals is made effortless and time-efficient.

Instead of waiting for food to thaw, PrimeFresh freezing on the **PANASONIC NR-DZ600MBSG** fridge keeps ingredients at a cool -3 degrees Celsius so you can maintain flavour and freshness in foods even if you don't use them right away.

Cooking and clean up is easy with the **Brandt BXP6555X** pyrolytic oven. Omega Grill technology circulates heat evenly for quick

and consistent cooking, and once you're done, you can trigger the Pyro-Express cleaning function which uses residual heat from cooking to burn up remaining food debris in the oven.

With over 25 years of experience and more than 300 products, EuropAce has established itself as one of Singapore's top brands for home appliances. Thus, it makes sense that its **Ottimo** range of hoods, hobs and ovens are built to withstand the rigours of fast, high-heat Asian cooking. Brass burners atop the hob produce strong flames to save time and gas, and intuitive preset oven programmes help busy locals achieve perfect baking and roasting results without fuss.

Ariston Gas on Glass Hob (TH 931 D2/A B)

Matchy metal details have a tendency to look dated and over-styled. Mix different finishes for a more casual look that's also easier to shop for.
